Edge Types

Square Edge

Thicknesses

1" (24mm) Thick only

Available Finishes

Textured White

Pre-printed

Custom Colour

Testing

Sound Absorption

ISO354:2003 - Class A2

Fire Safety

EN13501-12018 - Class A

Plus

Moisture and Sag Resistant - RH≥99%

Thermal resistant ≥ 0.6(m2k/w)

High Reflectance - 99% JJG 453-2002

Accolades

Will contribute to meeting LEED and WELL standards.

Installation and Maintenance

Suggested tools: Measuring Tape, Ladder/ Scaffolding, Drill (3/32" or 1/4" bit), Screwdriver, Hammer, Wire Clippers.

Method

Suspending from Ceiling:

Panels are suspended from anchors mounted to the ceiling with heavy duty cables. Anchors are available for solid or hollow-backed ceilings. Primacoustic hardware is recommended.

The number of suspension points required will depend on the size of the panel. Please refer to the installation manual for more information.

Maintenance

A clean, dry cloth is recommended for cleaning the surface of Archadia panels. Water-based and other liquid cleaners are not advised, as they may strip the panel's surface coating.

Warranty

Primacoustic acoustic products are guaranteed to be free of manufacturing defects for a period of 3 years after purchase. Please visit www.primacoustic.com/service-warranty for more information.
